#### PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed, both the title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D 25X1D

25X1D

Makachevo Army Barracks Svalyava is a support maintenance-type installation located (Figure 1) across the Latoritsa River from the town of Svalyava (48-33N 22-59E). The installation contains (Figures 2 and 3) approximately 15 barracks, 12 smaller dwellings, 18 maintenance storage buildings, and numerous small miscellaneous buildings. Hard-surfaced roads give access to the town of Svalyava, where a railroad extends 23 kilometers (km) west-southwest to Mukachevo and 198 km north-northeast to Lvov. A training area to the north and a support area to the east-northeast are

associated with the main installation.

The area has expanded steadily since [REDACTED]. The northern sector of Area E was prepared during the spring and summer of [REDACTED] and the increased ground scarring along the north edge of Area E and Area J indicates that more construction, some of which may be underground, is in progress. There has been little change in the administrative barracks or training areas.

The installation was covered by [REDACTED] KEY-HOLE missions between [REDACTED]

DESCRIPTION OF INSTALLATION

25X1D 25X1D

25X1D

**Railroad Service**

There are no rail facilities in the installation; however, a railyard is located less than one kilometer (km) south.

**Road Service**

The installation is situated on a hard-surface all-weather road. In the summer of [REDACTED] a new bridge was constructed 200 yards south of the main gate between the installation and the railyard area.

**Administrative and Troop Housing Areas**

Area D contains 15 permanent, multistory barracks and 12 permanent, multistory administrative buildings/billets.

**General Storage Area**

Area E contains nine permanent miscellaneous storage buildings.

**Other Buildings**

Three distinctive, drive-through-type

maintenance repair buildings are located in Area H.

**Equipment Storage/Maintenance Area**

Area J contains one 375- by 475-foot motor park with six maintenance storage buildings.

**Athletic Field**

A soccer-type field ringed by an oval track is located in Area K.

**Infantry or Combined Arms Field Training Area or Course**

Area R is marked by ground scarring and foot trails.

**Unidentified Facilities or Tracking Activity**

Area T, a small support facility apparently associated with the main installation, contains approximately five unidentified 200- by 50-foot buildings.
